

A Very Big Thank You to the Prayer Blanket Ministry - September 2018

We received a card with a note and a letter with more information. Read both below:

Dear Ladies of the Queen Of Peace Church,

First of all I would like to thank all of the wonderful ladies who contributed all their hard work and love and care that went into each and every blanket that has been made. You see I have end stage Lupus. I've had a stroke, oxygen is necessary. I'm in bed most of the time. I'm in constant pain. However, all is not lost. I have the good Lord on my side: He is with me each and every day. He helps me thru all my days and my pain. I have wonderful friends one I'm sure you all know, Sandy Murphy. She is the most loving, kindest, honest person I've ever met. She sent me one of the blankets you ladies made. I keep it with me always. It comforts me when I'm in pain, It comforts me when I can't breath, and it comforts me to know how many prayers are out there for me.

Thank you all just for being you.

Nancy Sian

Ladies, Ladies, Ladies, I would love to tell you a story:

As I explained to you in the card I sent, I have end stage Lupus. I also have a number of other medical problems, I've had a stroke, as a result, I have only one functioning kidney and I'm in constant pain. A dear friend of mine sent me a beautiful blanket, it came to me with all the love and blessings anyone could ever want or need. I cover myself with it each and every night. One night I woke up and couldn't breath and had severe chest pains, my husband called 911. I was rushed to the hospital with multiple blood clots in my lungs. On the way out the door, my husband and grandchildren started yelling at the EMT's "Wait take her blanket she won't leave without it!" "Make sure it stays with her. She will flip out!" and thank the good Lord they listened: I was unresponsive, I woke up two days later. They have Never Ever seen anyone come around with all their facilities, smiling, talking (sometime hollering) eating and breathing fine. Shortly after, all the clots dissolved. I was truly at death's door. Well they may say it was the great medical treatment I received. However, I believe it was a combination of my blessed blanket, my Lord, and all the prayers I received from my church and the blessings I received from my new family of prayers in Ohio.

Thank you so much,
Nancy Sian from Michigan
